

# warewashing

In foodservice, warewashing is all about efficiency, durability and simplicity. For your warewashing requirements, one company is all you need. Carlisle offers every rack, basket and accessory you need to get the job done.

## Opticlean™ Newave™ Glass Racks

The new practical interior design of NeWave™ Glass Racks means they hold 20% more glasses than comparable square racks which lowers your energy, water, chemical and staff costs whilst at the same time reducing storage space requirements by 20%. The rounded design means less movement and breakage. The two compartment sizes are compatible with the most popular glass and tumbler sizes.

### OPTICLEAN™ NEWAVE™ 20-COMPARTMENT GLASS RACKS

Use for glasses and tumblers.

OptiClean™ Glass or Dish Rack RE Available in Carlisle Blue (14) and REC Available in

## Opticlean™ Warewashing System

**THREE COMPONENT SYSTEM** - Our combination of base rack and alternating open and divided extenders offers the greatest protection without sacrificing performance

**1. QUICK DRAINING** - No flat surfaces to trap water or loose food particles inside the rack – ensures proper drainage

**2. POSITIVE STACKING** - from either direction – stacks with all major competitors

**3. SURELOCK™ EXTENDERS** - Unique snap-on / snap-off attachments allow for fast, simple assembly/ disassembly from the outside of the rack without loose screws, other fasteners, or even tools

**4. DOUBLE WALL CONSTRUCTION** - For maximum strength, protects contents from moving machine parts

**5. FOURWAY TRACKING** - Sturdy bottom with fourway tracking for easy dish machine loading without the need to rotate racks

**OPEN PROFILE DESIGN** - Facilitates superior washing, complete rinsing, and fast drying

**6. TEXTURED FINISH** - Non-slip textured finish on outside walls reduces scratches to keep racks looking new longer, improves durability, and provides a secure grip

**7. HONEYCOMB DESIGN** - Distributes load more effectively – like a brick wall, while smooth rounded edges on the large openings provide multiple handholds and a sure grip on racks from any angle

**8. COMFORT CURVE™ HANDLES** - Moulded into all four sides for easy handling, won't pinch fingers

**IN STOCK FOR IMMEDIATE DELIVERY  
TO ORDER CALL +31 (0) 316 596 550**

# Glass Rack sizing guide Instructions

1. Place glass upside down on the bottom right of the sizing guide
2. Look down on the base of the glass.
3. Note the smallest square on the guide where the largest outside diameter of your glass lines up completely within the square without touching it - this is the number of compartments your rack needs to have.
4. Place lip of glass against the base line of the vertical guide on the right-hand side of the page with the base/foot of the glass pointing straight up towards the top of the page.
5. While holding the glass against the vertical guide, note where the base/foot of the glass lines up on the vertical guide - the next line above the base/foot on the guide indicates the number of extenders your rack will require.
6. Carlisle's unique OptiClean Warewashing rack system allows you to build the perfect rack for any application. Glasses with a maximum height exceeding 270mm will need more than five extenders. Custom racks requiring more than five extenders are available for order by contacting a Carlisle FoodService Products customer service representative. Each extender adds approximately 40mm of additional height to the inside compartment of the rack. For glasses with a maximum diameter exceeding 150mm Carlisle FoodService Products recommends using the RTP peg rack. The RTP peg rack can be custom ordered to accommodate any glass height. Please contact a Carlisle FoodService Products customer service representative to place your order, or for more information about building the ideal rack for your needs.

## Glass Rack sizing guide

Note: Guide below represents diameter/size of recommended glass to fit corresponding compartment.
